(LCN Connections Issue 4 - August 2012)

FROM EXCURSION WORKSHOP TO LOCAL CHAPTER

Nelly Jolivet

Many of our LCN Chapter Leaders are also Outreach Facilitators and a work- shop can result in an “instant” chapter being formed. The workshop participants have often bonded during the workshop and wish to stay connected to each other. A new chapter is a great way to do this.

Recently, Nelly Jolivet a psychologist, an Outreach Facilitator, LCN Chapter Leader and Regional Coordinator for France held an Excursion Workshop in Paris Bastille, which resulted in the participants eager to be involved in a new LCN chapter.

Her words are as follows:

“I of course, introduced the LCN and am happy that everyone said they would like to be posted on any event organized. Now, we will have our first meeting sometime near the end of September and I trust if the space I found for free is not working, something else will show up. Or else, I am going to put this practical worry in the conversion box and it will take care of itself.

We should not forget to use our own tools to our own benefits and the grow- ing community.”
